To Whomever is considering Dariusz for a project:

I found Dariusz Zielonka ( [www.naturalwebdesign.net](http://www.naturalwebdesign.net) ) online to build my organization's website and he, to my surprise, completed every task on time, was honest and set the correct expectation. Everything that he said that he could do, he did and he did it extremely fast. When he promised one day, it came in less than 24 hrs later. He never asked for any extensions and met every single one of my deadlines. I was surprised by the quality and honesty of his work because I have never met Dariusz and I only spoke to him on the phone one time, very briefly. Although English is not his first language, he reads and comprehends just as well as me. I first asked him to reiterate every task that I asked from him, but then over time I realized that he had no problem understanding my requests.

He has a beautiful system where you can see updates as he creates the website. Dariusz is the only online foreign developer that I have ever used, but I plan to use him again in the future. He is reliable, honest and diligent. All of my expectations were met on time, at the price that he promised.

I recommend Dariusz very highly to anyone who has a vision and plan for their website. Dariusz is amazing at following directions and is very very thorough. If you have a list of exactly what you need, he is the most cost effective option to complete your project.

Thanks,

Andrew Kazakoff
